

Yahya Oweis

Senior Software Engineer – Java|Spring|Angular

oweisyahya@gmail.com | [linkedin.com/in/oweisyahya](https://www.linkedin.com/in/oweisyahya) | +212 610 143 869

Experienced **Senior Java Backend Engineer** with over **8 years** in enterprise application development, specializing in **AEM**, **Spring Boot**, **Microservices**, and **Cloud-native architectures**. Proven track record delivering scalable backend systems, digital commerce platforms, and CMS integrations for clients like **Richemont**, **Airbus**, **Chanel**, and **Abbott**. Adept in both monolithic and distributed systems, with strong cross-functional collaboration and training skills.

EXPERIENCE

Senior Software Engineer – Java/Spring/Angular – Richemont/SQLI – Rabat, Morocco Apr 2022 – Present

- Developed and maintained backend microservices using Java/Spring.
- Built Angular components aligned with UX/UI and brand identity.
- Migrated legacy monolithic applications to scalable microservices.
- Participated in system design and architectural decisions.
- Ensured high performance, availability, and fault tolerance.

AEM Trainer – Internal Enablement – SQLI – Rabat, Morocco Jan 2022 – Apr 2022

- Conducted training sessions for support and QA teams on Adobe Experience Manager (AEM) with a focus on authoring, architecture, and integration with Adobe Experience Cloud.

Development Liaison / Global Webmaster – Abbott/SQLI – Rabat, Morocco Jan 2020 – Jan 2022

- Served as the technical liaison between DEV and Product teams [abbott.com](https://www.abbott.com).
- Organized and delivered AEM authoring training globally.
- Supported content operations and platform migration to WordPress.

Java Developer – Test Automation (Karate) – Chanel/SQLI – Rabat, Morocco Sep 2019 – Jan 2022

- Designed a test automation POC for API testing using Karate.
- Integrated Jira and Jenkins to streamline test management.

AEM Backend Developer – Airbus /SQLI – Oujda, Morocco Mar 2017 – Sep 2019

- Delivered an AEM-powered platform for Airbus's official web presence [airbus.com](https://www.airbus.com).
- Worked in a global team on front/backend with GitLab and Jira.
- Technologies: Java 8, AEM, HTML/CSS, JavaScript, Vagrant.
